

Introducing our ...

# RE:STATION

# RE:STATION

The Re:Station is our brand new Station design made from the most sustainable materials we can source or create.

Inspired by our classic Station born in 2015, we have now created a completely unique, sustainable product.

It epitomises our #2minutesolution campaign through using repurposed and recycled materials.

At the end of life all materials will be used again and again – wherever possible.

## Circularity in action

# WHAT'S NEW?

- ✓ Each Re:station is individually handmade in-house at our brand new production space
- ✓ Made with reclaimed, repurposed, sustainable or recycled materials
- ✓ Flame-treated FSC certified timber frames, providing natural wood protection
- ✓ Energy efficient during manufacture
- ✓ Lighter design
- ✓ Handles included as standard for easier manoeuvrability
- ✓ Component parts sourced from discarded tents and upcycled PCR shop fittings

**CURRENTLY 1400 STATIONS  
AROUND THE UK AND IRELAND**

RE:STATION STYLE

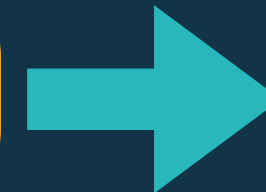

Fixed: £300

OR

Freestanding: £500

3

ADD ONS  
(Optional)

Personalisation (own  
logo/text/warning  
icons) : £50

Wheels: £50

Starter kit (4 litter  
pickers, 10 reusable,  
recycled tent bags): £100

**DELIVERY COSTS ARE  
£25\* AND  
ALL PRICES ARE +VAT \*\***

*\*Talk to us about bulk orders delivery and discounts and \*\*let us know if you are NOT VAT registered.*

*Due to the nature of the reclaimed materials used in the production process, each unit is unique and the design may differ slightly in colour to those represented, and vary in batch orders.*

# MAKING AN IMPACT, TOGETHER

We started from just one hashtag #2MinuteBeachClean that grew into a social media movement, and have over 80,000 followers to date on social media. Our small but mighty charity inspired people to clean up the beaches. We built a community, and the impact was HUGE.

And whilst we still clean up our beaches we have gone upstream to our parks, towns, and cities through our #2MinuteLitterPick campaign.

Thank you for enquiring about a Station, we have a shared belief in taking action for ocean health

**Each Station placed means a reduction in litter by up to 61%**

They encourage more people to take meaningful action against litter and plastic pollution

You are part of the solution

Your action connects communities and helps people to stay positive and feel a sense of accomplishment

**Because all waterways lead to the ocean.**
